

Blind Assignments

Day: Wednesday

Date: 22 Dec 2004

Hunting Hours:

Start: 0629

Stop: 0700

Blind requests with highest total number of "priority" (blind repairer) chits are processed first. Within that group, the member status priorities (1-5) listed on the blind request are next used to prioritize assignments. If a hunter has no partner, his request is processed after others of the same priority.
